	PRESENTER	TIME
Webinar 1	 <p>Hayley Wickenheiser <i>Four-time Olympic Gold Medalist, Member of the Hockey Hall of Fame</i></p>	9:30am to 10:30am EST

Zoom Link: <http://bit.ly/ConventionKeynote2020>

Zoom Passcode: qpat2020

Description:

Hayley Wickenheiser is considered one of the best female hockey players in the world. Seven world championships, six Olympic appearances, five Olympic medals — she is a titan of sport and a leader both on and off the ice. Wickenheiser now sits on the International Olympic Committee’s (IOC) Athletes Commission and is the Vice Chair of the Calgary 2026 Bid Committee as well as the Player Development Assistant Director for The Toronto Maple Leafs. Beyond sport, she is a community leader and an accomplished student and businesswoman who inspires audiences to give their best in everything they do.

In her 23 years as an Olympic athlete, Wickenheiser led her team to four gold medals and one silver medal, and served as Canada’s official flag bearer at the 2014 Sochi Olympics. She also won seven gold and four silver medals at Women’s World Hockey Championships as part of the Canadian Women’s National Team. Wickenheiser made hockey history as the first female player to notch a point in a men’s professional game, and as the first woman in history to have played in/coached at four NHL development camps with the Philadelphia Flyers, the Edmonton Oilers, and the Toronto Maple Leafs.

In 2019, Wickenheiser was inducted into Canada’s Hockey Hall of Fame. She has also been named one of Sports Illustrated’s Top 25 Toughest Athletes in the World; has been twice-named to the “Power 50 in Sports”; was among the QMI Agency’s “Top 10 Greatest Female Athletes in the History of Sports”; and is a member of the Saskatchewan Sports Hall of Fame, Canada’s Top 40 under 40, and Canada’s Walk of Fame. In 2014, she was awarded Canada’s highest honour when she was appointed to the Order of Canada for her achievements as an athlete and for her contributions to the growth of the women’s game. Wickenheiser’s passion for sport is paralleled by her desire to give back to the community through her work with dozens of philanthropic organizations, including Lace ‘Em Up, Jumpstart, KidSport, Project North, and Right to Play. She is also the founder of the world-renowned personal and athletic development weekend, The Canadian Tire Wickenheiser World Female Hockey Festival, which provides mentoring and growth opportunities for young athletes around the world. Wickenheiser holds several honorary degrees from institutions across Canada, as well as a Masters in Kinesiology from the University of Calgary, where she is also currently studying medicine.

Workshop: 2020 How to create a clear vision for the future

In this session, I want to be able to share some ways in which we can take the experiences that have come from our isolation, introspection, and our opportunities to become a bit more informed, and from that, work towards a future where we are better prepared. The isolation was created due to the global pandemic and our need to protect our own health and the health of our families and community through keeping our social distance and becoming adept with the use of personal protective equipment. Then another shock. The killing of George Floyd, the global protests and demands for justice that have not been seen before. Many of us could never have imagined such a time. Our kids also have been part of this period. Your students may have many questions, you may have many questions. What are some of the approaches you might want to consider in your classrooms and in your teaching practice related to the 'racial pandemic'? What does it mean if you have little diversity where you live or teach? This presentation will discuss some practical considerations regarding diversity, inclusion and equity using a Black History frame of reference.

Description:

EdTechTeam Canada envisions a future where students actively engage in their learning and bring their passion into the classroom every day. To help achieve this, we are dedicated to helping educators and schools integrate technology meaningfully, regardless of the platform (Google, Apple, Microsoft, etc.). With extensive connections to current classroom educators across Canada, coupled with our pedagogy-first approach, our workshops provide an engaging and purposeful opportunity for inspiration, creation, and reflection, ultimately leading to positive change for Canada's classrooms and students.

Workshop: Best Practices for Learning and Teaching Online

Now that the school year is rolling, you want to keep your students engaged in their learning. Join this webinar where we will look at some fun, engaging, and powerful ways students can demonstrate their understanding whether they are face-to-face in your classrooms, or working remotely from home. Whether you are working in a Microsoft or a Google environment, our team will provide a variety of practical ideas and templates that you can implement as early as Monday morning!
