

**APPENDIX XXXIX
PROVINCIAL ADVISORY COMMITTEE
ADDITION OF A SUBJECT FOR VOCATIONAL TRAINING (VT)
AND DISTANCE LEARNING (VT-AE)**

1. Context

Addition to the committee's mandates, because individualized teaching in vocational training is a phenomenon that has been spreading for a few years and affects certain training programs more than others, such as secretarial training. The same is true for distance education in VT and AE, which is not limited to the context of the pandemic, and which must therefore be addressed in the committee's work.

These changes in teaching require a great deal of teachers' time and lack guidelines.

It is important to note that this appendix does not address distance education in the youth sector.

2. Amendments to the contents of the Appendix

The Ministère and the QESBA, on the one hand, and QPAT, on the other hand, shall form a Provincial Advisory Committee.

The committee shall consist of two representatives of the CPNCA (one representative of the Ministère and one representative of the QESBA) and two representatives of QPAT.

Each party may call upon resource persons.

The committee shall determine its own operating rules and the schedule of its meetings.

The committee's mandate shall be to study any matter of a provincial nature submitted by either party for discussion.

For the duration of the agreement, the committee is also mandated to discuss issues related to individualized instruction in vocational training (VT) and distance education for VT and adult education (AE).
